MODEL
SVC3000

SPECIFICATION SHEET

Voltage Regulator, 3000 Watts

Fully automatic servo motor-type A.C. voltage regulator, 3000 watts.

Capacity	3000 watts
Input	110/200/220/240 Volt
Output	110/220-240 Volt
Dimensions (W x H x D)	9.5 x 9.0 x 9.0 in.
Weight	26.45 lbs.

This unit has the following features:

- This unit is usually used in countries where the voltage current is not stable.
- This voltage regulator will stabilize a voltage fluctuation between 50v-130v or 160v-245v (+/- 4%)
- 1 Year Parts and Labor Warranty.
